

Coconut

Country of origin: Sri Lanka

Mixer® Coconut is made with pure coconut milk from the Indonesian islands. Our coconut puree is the perfect mix between the cool and refreshing coconut milk contained within the nut and the fibrous part attached to the shell. Coconut flakes enclosed in our bottles are the visual proof of the great quality of Mixer® Coconut. We bring into our drinks the whole aroma and exotic flavour of the freshly picked fruit straight from the tree.

Mixer® Coconut contains no food colouring.
