

## Passion Fruit

Country of origin: Ecuador

The term Passion Fruit or 'Passionflower' comes from the Latin 'passion fruit' even though the effect it has on our body is not exciting but actually soothing. It differs from the similar Maracuja fruit from the round form, from the dark purple skin and from the more yellow pulp.

Mixer® imports the Passion Fruit from from South America to bring back into the drink the true flavour of freshly picked and blended fruit.

This product contains no food colouring.

**EAN Code: 8015817001302**

**Code: 144**

**Weight: 1,35**

**Package: cl. 100**
