

Pineapple

Mixer® Pineapple comes from the double concentration of the best pineapple puree grasped in Israel. Only the sweetest and most fragrant pineapples are selected to become Mixer® fruit pulp.

2 Kg of fresh pineapple puree are used to obtain 1 kg of Mixer® Pineapple. The puree is then concentrated losing more than half of its volume of water. The result of this process is 200% concentrated fruit puree.

With the aid of the measuring notches on the Speed Bottle Mixer® we suggest the following usage of the product:

- PURE when used for Frozen or Tiki Cocktails or Slush drinks
- DILUTED with 5 parts of water (16 cl pure product for each liter of water) to obtain a suitable juice for blending
- DILUTED with 7 parts of water (12,5 cl pure product for each liter of water) to obtain a suitable ready to drink NON PASTEURIZED juice

Mixer® Pineapple contains no food colouring.
