

Raspberry

Country of origin: Germany

Mixer® 100% Raspberry contains raspberry puree and brings back in the drinks both the taste and the essence of freshly picked berries. The raspberry puree is picked in northern Europe, although most of the production comes from Germany. The concentrate puree is then gently and skillfully processed with other ingredients to obtain a perfect mixing product with the right colour intensity and a strong aroma. Mixer® will ensure the perfect cocktail with pure fruit flavour!! Excellent for cocktails, frozen drinks, soft drinks, smoothies and slush drinks. It can also be used to garnish cakes, ice creams or it can even be used to flavour tea or hot chocolate.

Mixer® Raspberry contains no food colouring.
